

Handler Name: *Shelly Smith*

Dog Name: *Champ*

Date: *4/26/16*

Exercise 1: Handler's Questionnaire Reviewed

Issues of familiarity? Y N If yes: Facility Evaluator

The handler provided pre-approval from Pet Partners for the following type of accommodation: Special Equipment Modified Exercise(s)

Exercise 2: Accepting a Friendly Stranger

Carried? Y N

Team Score: NA / NR / 1 / 2

- Proactive handling
- 2 - Consistently reads cues, applies PETS™
- Excellent client interactions
- 1 - Reactive handling
- 1 - Sometimes reads cues, applies PETS™
- 1 - Awkward client interactions
- NR - Inactive handling
- NR - Misses cues, no PETS™
- NR - Inappropriate client interactions

- Stays with handler
- 2 - Promptly responds to handler's cues
- 2 - Maintains connection with handler
- 2 - Relaxed/content body language
- 1 - Needs additional cues from handler to maintain position
- 1 - Temporarily loses connection with handler, recovers
- 1 - Some body language for stress, recovers
- NR - Does not comply with cues from handler, makes contact or retreats
- NR - More interested in environment than handler or client
- NR - Clusters of body language for stress

Comments:

Exercise 3: Accepting Petting

Carried? Y N

Team Score: NA / NR / 1 / 2

- Proactive handling
- 2 - Consistently reads cues, applies PETS™
- Adeptly guides/adjusts interactions
- Excellent client interactions
- 1 - Reactive handling
- 1 - Sometimes reads cues, applies PETS™
- 1 - Guides/adjust interactions with prompting
- 1 - Awkward client interactions
- NR - Inactive handling
- NR - Misses cues, no PETS™
- NR - Does not guide or adjust interactions
- NR - Inappropriate client interactions

- 2 - Stays with handler
- 2 - Promptly responds to handler's cues
- 2 - Maintains connection with handler
- Relaxed/content body language
- Seeks out interactions
- Needs additional cues from handler to maintain position
- 1 - Temporarily loses connection with handler, recovers
- 1 - Some body language for stress, recovers
- 1 - Accepts interactions willingly
- NR - Does not comply with cues from handler, makes contact or retreats
- NR - More interested in environment than handler or client
- NR - Clusters of body language for stress
- NR - Avoids or resists interactions

Comments:

Champ was eager, but you did a nice job of redirecting

Exercise 4: Appearance and Grooming

Floor Table / Evaluator Lap

Team Score: NA / NR / 1 / 2

- 2 - Proactive handling
- Consistently reads cues, applies PETS™
- 2 - Adeptly guides/adjusts interactions
- Excellent client interactions
- 1 - Reactive handling
- 1 - Sometimes reads cues, applies PETS™
- 1 - Guides/adjust interactions with prompting
- 1 - Awkward client interactions
- NR - Open toe shoes, inappropriate attire
- NR - Inactive handling
- NR - Misses cues, no PETS™
- NR - Does not guide or adjust interactions
- NR - Inappropriate client interactions

- Very well groomed
- 2 - Promptly responds to handler's cues
- 2 - Maintains connection with handler
- 2 - Relaxed/content body language
- 2 - Seeks out interactions
- 1 - Appropriately groomed
- 1 - Needs additional cues from handler
- 1 - Temporarily loses connection with handler, recovers
- Some body language for stress, recovers
- 1 - Accepts interactions willingly
- NR - Not ready to visit due to odor, coat, nails, etc.
- NR - Does not comply with cues from handler, retreats
- NR - More interested in environment than handler or client
- NR - Clusters of body language for stress
- NR - Avoids or resists interactions

Comments:

Touching ears caused some stress

Exercise 5: Out for a Walk

All dogs must walk, no carried option

Team Score: NA / NR / 1 / 2

- Proactive handling
- 2 - Consistently reads cues, applies PETS™
- 2 - Excellent client interactions
- 1 - Holds lead unnecessarily tight
- 1 - Reactive handling
- 1 - Sometimes reads cues, applies PETS™
- 1 - Awkward client interactions
- NR - Inactive handling
- NR - Misses cues, no PETS™
- NR - Inappropriate client interactions

- Walks on loose lead
- 2 - Promptly responds to handler's cues
- 2 - Maintains connection with handler
- 2 - Relaxed/content body language
- 1 - Walks with a partially or occasionally tightened lead
- 1 - Needs additional cues from handler to maintain position
- 1 - Temporarily loses connection with handler, recovers
- 1 - Some body language for stress, recovers
- NR - Pulls creating a tight lead
- NR - Does not comply with cues from handler
- NR - More interested in environment than handler
- NR - Clusters of body language for stress

Comments:

Excellent leash skills!
