

## Boosted Post Program

Thank you for your interest in inviting registered Pet Partners therapy animal teams to your facility.

The *Boosted Post Program* provides facilities an opportunity to increase the visibility of your volunteer request. We offer facilities and community organizations a free way to post volunteer opportunities on our website so that our registered teams who are seeking new opportunities for visits are aware of volunteer options. Please proceed with that option here:

[petpartners.org/facilities](https://petpartners.org/facilities).

Our *Boosted Post Program* offers facilities a fee-based option to increase the visibility of their volunteer request. In addition to being included on our searchable web listing of visit requests, Boosted Post ensures registered handlers near your facility will also receive an email highlighting the opportunity. Boosted Post is a proactive approach to recruitment since the website postings will only appear to teams who are actively searching for visit opportunities.

**How do we proceed?** We will provide an invoice to you for the \$250 Boosted Post fee. Upon receipt of payment and confirmation of your request details we will schedule your Boosted Post recruitment email to go out to appropriate teams for this opportunity. This program increases the likelihood teams will sign up for visits at your facility. Because our teams are volunteers, participation cannot be guaranteed however.

**Why Choose Pet Partners?** We are the nation's largest and most prestigious nonprofit registering handlers of multiple species as volunteer teams providing animal-assisted interventions. We have the the highest caliber curriculum in the industry. We offer our teams superior risk management and the industry's highest safety standards, continuing education, and insurance. You will be partnering with the most respected brand in the therapy animal community.

Our volunteer teams make millions of visits per year to a variety of settings including hospitals, nursing homes, veterans' centers, hospice, memory care facilities, courtrooms, schools, and other facilities. By supporting the Pet Partners through our *Boosted Post Program*, you are supporting thousands of therapy animal teams as they positively impact millions of lives across the country.

**Thank you.**
