

Network Map Fundraising Activity

Write your name and your pet candidate's name in the center circle. Then fill in the surrounding circles with the names of people who might support your fundraising campaign. Start with people closest to you and work outward.

The most successful fundraisers simply share:

- Why this cause matters to you
- Why your pet is special
- How they can help support your goal

Circle Categories:

- **Center Circle:** Your name and your pet candidate's name
- **Close Circle:** People you talk to regularly. These are often your strongest supporters.
- **Family:** Don't forget extended family!
- **Friends:** Friends from school, activities, hobbies, and social groups.
- **Work/Professional Contacts:** Coworkers, clients, and professional connections.
- **Community Connections:** Neighbors, volunteer groups, and clubs.
- **Social Media Contacts:** People you interact with online.

Feel free to draw additional circles for other groups or people you think of! The more names you write down, the more potential supporters you have.

Once you complete your network map, start reaching out and sharing your campaign.
